LED SERIES

QUADRA® LED CUBE SYSTEM

The QUADRA LED lighting system offers endless color possibilities to modify your surrounding.

This system does not produce infrared and ultra violet light. Therefore, heat production is minimized, avoiding discoloration of objects being lit. This special feature gives the QUADRA LED lighting systems the flexibility for numerous types of applications such as architectural/retail spaces, stage/entertainment, video/film productions, night clubs, art galleries, museums and much more.

This solid-state lighting system has been designed for easy installation and safe energy efficient, long life operation. The combination of Red, Green and Blue LEDs offers a tremendous range of colors with smooth transitions from one color to the next.
